# Welcome!

As the designer of the Zot Artz art tools, I want to welcome you to the wonderful world of Zot Artz- Arts For All! Zot Artz began in 1990 with a grant from the National Endowment for the Arts to build the first painting wheelchair, Project Mobility. Made with an electric wheelchair, this first machine was large and whimsical. Four paint rollers and two side “thumpers” whirled into action while smiling drivers painted sidewalks and driveways.

The Zot Artz- Arts For All program developed from that single painting wheelchair. As the idea grew and developed, so did the machines. Small, compact, and portable, Zot Artz equipment is now part of a mobile art studio that brings workshops and in-service training to schools and other facilities throughout the United States. All of the equipment is designed so that participants with lack of fine motor skills can be successful. Zot Artz provides all individuals a greater chance to uncover their creativity. Instead of merely allowing the disabled to be included in traditional art activities, the program is designed specifically for individuals with disabilities and encourages non-disabled participants to join in.

We love what we do and we hope that it shows. If you have any questions or just want to chat about art, please feel free to contact us in the studio

## **Squirt Me! Limited Edition Item #2-20210 -- \$875**

**Super Squirt is a switch activated liquid paint brush. Simply attach the squirt head and switch to the wheelchair, add your favorite washable paint to the paint pack, press the big red button and get ready to paint. Great interactive experiential play! Paint projects approximately 10-15 feet in front of the user. The paint pack holds about one gallon of liquid color and hangs onto the back of the wheelchair.**

## **Give It A Whirl!**

**Item# 2-20270 -- \$399**

Our first ever “Flying” machine! Named by a young man who was encouraging a friend by calling, “Go ahead! Give it a whirl!” Simply slide the whirly onto the armrests, wrap, and go! Roll and the spinning, whirling, twirling, color wheels are set into motion, letting the artist of this composition feel as though they are the pilot, flying in their wheelchair.

## **Armrest Major Bubbles Item # 2-20252 -- \$467**

**Developed in response to a request from a young girl who could not blow but wanted very much to blow bubbles. Major Bubbles is about the completeness of experiences. Attaching to the front of a wheelchair, this bubble blower is activated as the wheelchair is moved forward, creating a magical cloud of bubbles around the user.**

**Newly redesigned and improved more bubbles more fun!**

**Can also be switch activated upon request, add \$150. For switch activation with switch, add \$250.**
